Re: In the Matter of: Developing a Unified Intercarrier Compensation Regime CC
Docket No. 01-92

Dear Ms Dortch:

In accordance with Section 1.1206 of the Commission's rules, 47 C.F.R. § 1.1206, I hereby provide you with notice of oral ex parte presentations in connection with the above-captioned proceeding.

On June 29, 2004, members of the Rural Iowa Independent Telephone Association ("RIITA") met with Commissioner Michael J. Copps and Jessica Rosenworcel of Commissioner Copps's office, Commissioner Jonathan S. Adelstein and Dionne McNeff of Commissioner Adelstein's office, Michelle Carey of Chairman Kevin J. Martin's office, Thomas Navin, chief of the Wireline Competition Bureau and discussed the above-captioned docket. We provided information about the extent and deployment of advanced telecommunications technology in Iowa, particularly in exchanges served by independent telephone companies, including information about the deployment of broadband internet access. We asked the FCC to recognize the differences between rural independent telephone companies and other types of carriers, run economic models before adopting any intercarrier compensation scheme, maintain universal service and assure that rural telecommunications companies receive a reasonable rate of return.

In addition, we provided a brochure about RIITA, a map showing all Iowa telephone exchanges, a copy of comments filed by RIITA in this docket, a study on broadband access in Iowa conducted by the Iowa Utilities Board, and a copy of legislation adopted by the Iowa Legislature during its most recent session. Copies of all of those documents are being filed electronically with this letter.

If you have any questions or would any additional information, please contact me.

Sincerely,

/s/

Thomas G. Fisher Jr.
